LONDON, S.W.7.

27th March, 1934.

Professor A. Quintanilha,  
Jardim Botanico,  
Coimbra,  
Portugal.

Dear Professor Quintanilha,

Mr Exell has informed me that the Department of Botany has made no return for the Boletim da Sociedade Broteriana. His suggestions that we should present the 'Journal of Botany' is not possible to follow for that periodical is in no way the property of the Museum. It is the private property of the publisher though it formerly belonged to Mr J. Britten.

The only publications that we have to offer are given in the enclosed list. If you will mark any of these which your library desires I will recommend that they be sent.

Yours very sincerely,

(J. RAMSBOTTOM)  
KEEPER OF BOTANY

I read your paper on sexuality, which you kindly sent to me, with great interest. I am sending a few reprints in a separate envelope.
