

Kew, May 20. 84

My dear Sir,

The names of your  
plants are

1. ? Marsilea quadrifida L.

The fruit is reserved  
for certain dedications  
2<sup>tes</sup>

2. Asplenium adnigrum L.

3. Selaginella  
Mannii, Baker
4. acrostichum  
repinatum, Kuhn
5. Ericaceae - new  
to us from Tropical  
Africa; apparently  
Erica, (but not)

E. arborea, the  
only tropical species  
of Philippia. The  
specimen is not  
satisfactory for  
determination  
though extremely  
interesting

Believe me  
Yours very truly  
W. R. Heselton Dyer
