Dr. J. A. Henriques,
Director, Botanic Garden,
Coimbra, Portugal.

Dear Sir:

Your letter of August 18 was duly received, and I regret to note that the seeds of Kokia rockii which we sent to you a short time ago, failed to germinate. We have no new seed of this species at present, but as some of our correspondents were successful in growing seed from this lot, we are sending you under separate cover an additional quantity in the hope that you may yet succeed in propagating some plants.

Very truly yours,

David Fairchild
Agricultural Explorer in Charge.

N.
