

UNITED STATES DEPARTMENT OF AGRICULTURE,
BUREAU OF PLANT INDUSTRY.

RAY-EDA.

OFFICE OF SEED AND PLANT INTRODUCTION
AND DISTRIBUTION.

FOREIGN EXPLORATIONS.

Washington, D. C., Feb. 1, 1909.

Dr. Julius Henriques,
Director Botanic Garden,
Coimbra, Portugal.

Dear Sir:

We wish to obtain samples of three to four ounces each of as many varieties of oats as possible from your region, and I ^{am} writing to ask if you cannot assist us by sending these to us. A couple of tags addressed to us in care of I. P. Roosa, Esquire, our dispatch agent in New York are herewith enclosed and these can be used in sending us these samples if you can help us in this matter. We should be glad indeed to reciprocate by sending in return any seeds from this country you may desire.

Trusting you can assist us, I beg to remain,

Yours very truly,

David Fairchild
Agricultural Explorer in Charge.
