

Botanic and Domain Gardens,

Melbourne, 21. 6. 1897

MEMORANDUM.

To Professor J. A. Henriques, -  
The Director, University Botanic  
Gardens, Coimbra, Portugal.

My dear Sir,

You have sent me, on several occasions, very useful collections of seeds, - many proving new introductions, - but have scarcely, if ever, asked special desiderata, consequently I am at a loss - at any time - how to send suitable returns. You have only, however, to say what is desired, when I will do my best to meet your wishes.

I am now sending 36 species of seeds, some of which may prove useful for your own growing, while others will, perhaps, suit for interchanges?

The accompanying list of Orders - not represented in these Gardens - is sent, in hope you will be able to help by supplying material. Anything you may kindly do, will be much appreciated.

Believe me,  
yours most faithfully,

W. J. Paulsen  
Director.

Botanic and Domain Gardens,

Melbourne, 21. 6. 1897

MEMORANDUM.

To <sup>J. G.</sup> Professor ~~H.~~ Menzies,  
Director, University Botanic Gardens,  
Coimbra.
