My dear Prof. Henriques

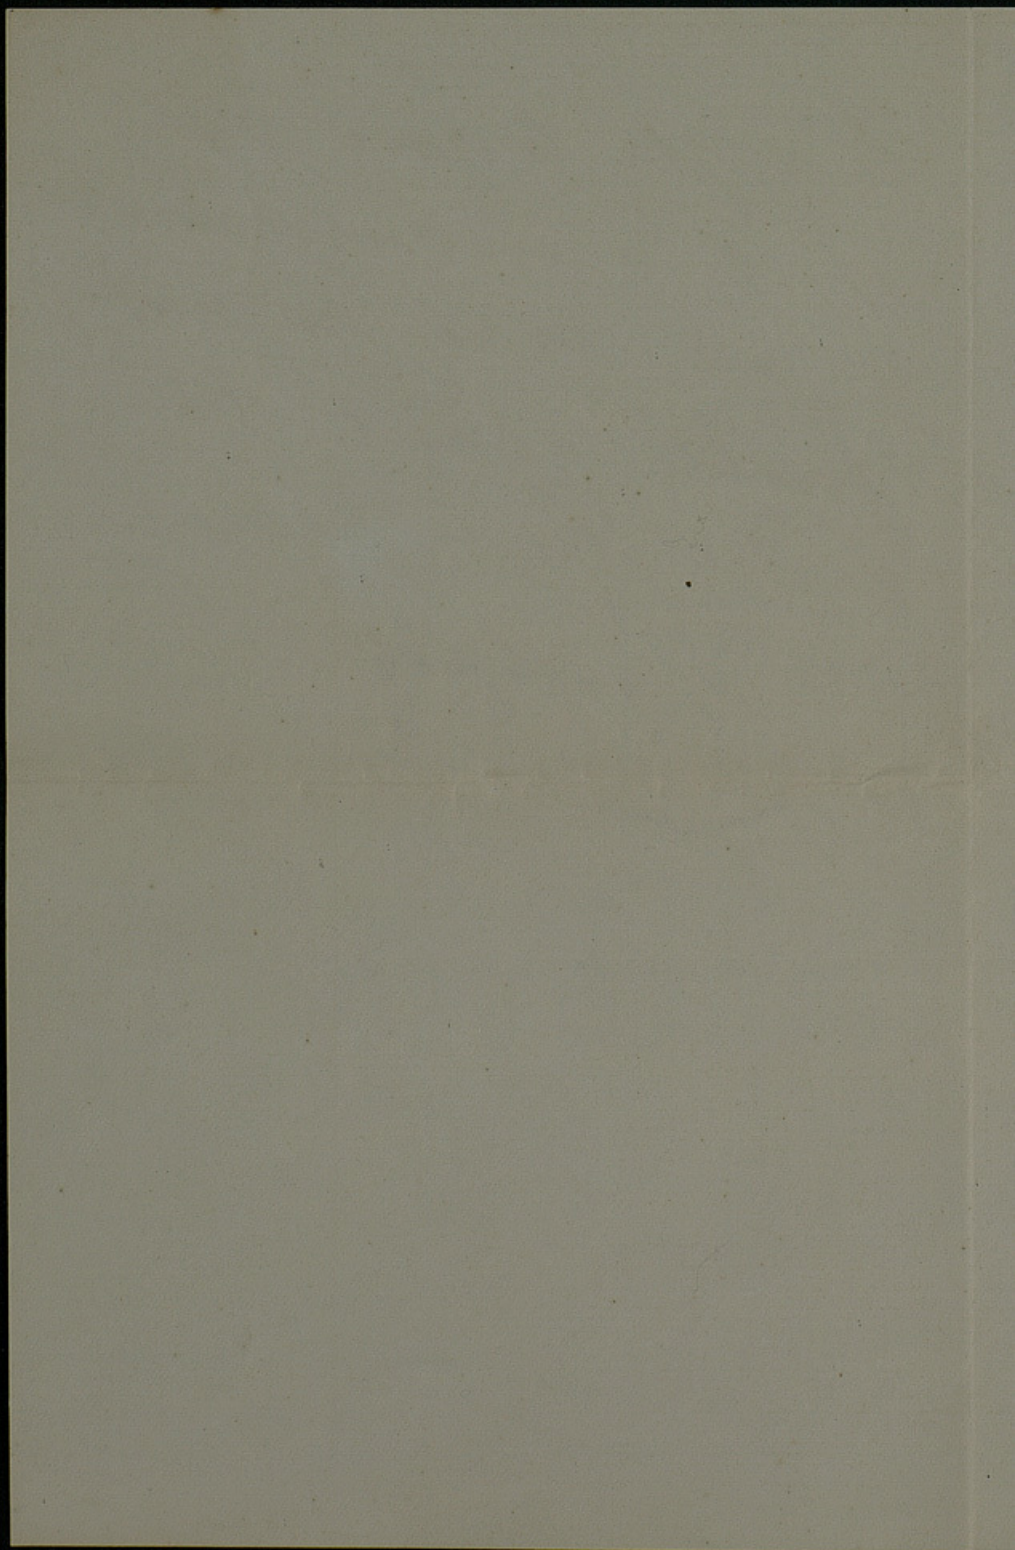

One of our best
cultivators asks me
where he can procure
seeds of *Stelionthemonum*
europaeum, *Cistus*
retinatus or any
of your Portuguese
species of *Cistus* -

I could not answer
his question so I

venture

to apply to you but
if it is inconvenient
to you pray do not
trouble about the
matter but believe
me faithfully

Maxwell T. Masters.
