

Charlton House,
New,
England.
13.1.03.

Dear Sir,

I beg to thank you
for your letter of the 20th ult.
I should be very much
obliged if you could send
me on loan for a few days
the specimens of Erysiphe
bichoracearum, E. communis,
Sphaerotheca pannosa, and

Mucinula adunca ~~is~~ collected
in Portugal.

If you cared for me to
do so, I would examine
and critically determine the
whole of your collection
of Crysiphaceae.

I will take every care
of the specimens sent,
& return them by registered
post.

Yours sincerely,
E. S. Salmon.
