

Mösterneburg pr. Wien. 27. Juin 1848.

Très honoré Monsieur!

Je me prends la liberté de vous prier bien cordialement d'avoir la grâce de me procurer le nombre suffisant de la Septoria Tami Westd. sur les feuilles vivantes de Tamus communis (no. 31. de votre collection) pour l'édition dans mon Mycothecae universalis! Je souhaite vivement de publier cet fungillus rare et intéressant dans mon oeuvre, seulement je crains que la quantité nécessaire ne sera pas possible de collecter. J'en ai besoin au moins de 300 bonnes feuilles! J'ajoute un spécimen que le monsieur qui se chargera de la récolte se puisse informer, j'en ai signé les tâches du fungillus bon développés avec rouge; il est absolument nécessaire de prendre seulement des feuilles d'où les tâches sont distingués et d'un brun assez clair, les autres, d'une couleur plus forcée ne portent pas encore des protuberances avec des spores mûres!
