

Botanic and Domain Gardens,

Melbourne, 18: 3: 1892

MEMORANDUM.

To Professor D. J. A. Henriques
Director, Royal
Botanic Gardens
Coimbra, Portugal.

Dear Sir,

You have always so largely supplied me with seeds of rare species (many new to our collections), as witness those sent during last year out of which 42 at least are of this character. I am therefore anxious to make known my wants a fresh seeing you were so good to send me a Catalogue which, marked in red ink, I have now returned to show what is desired. I enclose also (I may have sent you one previously) a printed list of desiderata, and I have sent you a selection of seeds, some of which may prove to be acceptable.

Any special request for seeds, will always receive my careful consideration.

Believe me,
yours very faithfully
W. E. Gilchrist
Director.
