

Helsingfors, Apr. 12/83.

Dear Sir

First to day I was able to examine your Livermooses. Last summer I was abroad, high up in the Norwegian Alps, where I collected plenty of good things for my Exsiccata. But as a sequance of the voyage I have been (often very) ill from fatigues and rheumatism, and of course very little or not at all fit for work. Now I am much better again, and as a token of this you find here the list of your said Mosses. But, please, when you gather such plants, make them clean and press them a little, what will spare time for the Determinator, and indeed I am now high up over my head sunk in involuntary neglected works, and after my time, so I must open every minute.

Ever yours

S. O. Lindberg.

Can you give me of number 22 (Nardie hufvudsakligen) växt i Thymus
narration on its habitat, and of the fungus now? Rafinesque?

1833

Dear Sir

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the purchase of a quantity of your goods. I have the pleasure to inform you that the same have been forwarded to you by express of the 12th inst. and will reach you in a few days. I have also the pleasure to inform you that the same have been forwarded to you by express of the 12th inst. and will reach you in a few days. I have also the pleasure to inform you that the same have been forwarded to you by express of the 12th inst. and will reach you in a few days.
