

ROYAL BOTANIC GARDENS,

KEW, SURREY.

DIRECTOR'S OFFICE.

31 October 1916

My dear Colleague,

It gives me great pleasure to enclose herewith a list of determinations of the phanerogamic specimens from São Thomé which arrived here on 16 Aug. last. The delay has been due to the shortage of our staff owing to the war - four of your assistants are absent on military duty.

For this reason we have not yet been able to deal with the Algae but I hope to be able let you have the Algae specimens back, named, at an early date.

Believe me to be

Yours very sincerely

D. Prain
