Cleveland's,  
Peigate,  
Surrey,  
England.

Feb. 13. 1905.

My Dear Sir,

I am returning herewith  
some of the Statices you  
were good enough to lend me  
some time ago, and wish  
to thank you very much  
indeed for the loan of  
them. I am retaining  
the remainder for further  
study. Amongst these, is  
a fine tall Statices labelled,

Please, kindly recollect that  
I am always anxious & glad to  
Examine any European Statics  
I will always return them when  
so required.

Please accept the reprint  
I am sending -

With kind regards &  
thanks,

Faithfully yours,

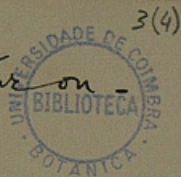

C. E. Salmon.

P.S.

I find I have omitted  
to thank you for your very  
great kindness in allowing me to  
retain some of the specimens for  
my Herbarium - The remainder I

will send back to you later on -

I find I am obliged to send  
this letter in a separate cover,  
as the Postal Regulations prevent  
my enclosing it in the parcel -

C.E.S.

" Setubal : pantanos da Cotonia -

Req. A. Lussier. agosto 1900. N<sup>o</sup> 66 "

Could you, do you think,  
send me any further examples  
of this interesting Statice?

It is so difficult to judge  
a plant from a solitary specimen.

I am sending also, with  
this, a few British plants  
for your acceptance:  
amongst them, you will see a  
Ranunculus and I am await-  
ing with interest to see if  
you will agree to the name  
I suggest, R. oboleucos - a  
plant unfamiliar to British  
botanists.

Esta bem.
