

BRITISH MUSEUM (NATURAL HISTORY),

CROMWELL ROAD,

LONDON: S.W.

01-28

Dear Sir,

There is a new British
Flora: some 10 volumes
to be published from
Cambridge. I have been
asked to do the genus
Plantago for this work &
I am in doubt about one
of the varieties of P. coronopus

and I am writing to ask
if you could let me have
a leaf of Plantago
Coronopus var crithmifolia
as I cannot find specimens
of this plant anywhere in
this country.

Yours very sincerely
Edmund Baker,
