SYRACUSE, N. Y.

DEPARTMENT OF DENDROLOGY
HARRY P. BROWN, Ph.D.,
PROFESSOR AND HEAD OF DEPARTMENT
CARL C. FORSAITH, Ph.D.,
INSTRUCTOR IN DENDROLOGY

Syracuse, N. Y.,
September 8, 1920.

Dr. J. A. Henriquez
University of Coimbra
Coimbra, Portugal

Dear Dr. Henriquez:--

I am just in receipt of your post card inquiring as to the safe receipt of the collection of hand samples of Portuguese woods. Your card came as a surprise in that I am of the opinion that I acknowledged receipt of the samples promptly. However, I am writing you a second letter as per your request.

The French script bothers me somewhat but if I translated it correctly you wish merely for an official announcement as to the safe receipt of the samples. These arrived in due time and are now a part of the permanent collection of this College. If a nominal charge for the above samples is in order, please advise me as I am anxious to do the right thing.

Trusting to hear from you from time to time, I remain

Very truly yours,

H. P. Brown
Professor of Wood Technology.
