

April 18. 78

My dear Sir

I enclose a supplementary list from Prof. Olinde of plants received from you of which there was either some error in the preliminary determination or which had no names

assigned them.

We should be glad  
of the further despatches  
of dried plants which  
you are so good as  
to promise us.

We should also be  
glad of the photographs

as we have a collection  
of views of various  
botanic gardens.

I wish you could  
induce Sr. Gomes to  
send us some more  
of the duplicates of  
Dr. Welwitsch's African  
collections

Yours faithfully  
W. T. Thickett Dyer
