

March 21. 78

My dear Sir

We received yesterday
from you a box containing
about 300 specimens of
dried plants a packet
of algae one of fungi
and a most beautiful
series of drawings of the

Letter plants.

For the dried plants
we are not grateful.

Are we to keep the
drawings of fungi?

What do you wish done
about them when they
are named?

Yours very truly
W. T. Thistlethwaite Dyer
